

INDEPENDENT AUDITOR'S REPORT TO THE TRUSTEES

Opinion

We have audited the financial statements of Developments in Literacy (the Society), which comprise the statement of financial position as at December 31, 2024, and the statement of income and expenditure, the statement of comprehensive income, the statement of cash flows, the statement of changes in funds for the year then ended, and notes to financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Society as at December 31, 2024 and its financial performance and its cash flows for the year then ended in accordance with accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Society in accordance with the International Ethics Standard Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, and for such internal control as management determines is necessary to enable the preparation of a financial statement that is free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Society's ability to continue as going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Society or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Society's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statement.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of the material misstatement of the financial statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Society's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, and related disclosures made in the financial statements by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the Society's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Society to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

DEVELOPMENTS IN LITERACY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024

1 THE SOCIETY AND ITS OPERATIONS

Developments in Literacy ("the Society") is a non-profit organization. The Society was registered in March 2003 under the Societies Registration Act, 1860.

The basic aim of the Society is to promote literacy among children who have no access to education and to encourage and facilitate the improvement and use of educational resources in literacy development in Pakistan. The Society does this by running its own schools and supporting the existing setup of primary schools, mainly in the rural areas with the focus on enrolling girls.

The principal office of the Society is situated at Plot 1-E, Street No. 11, Class III Market, G-11/1, Islamabad.

Society had signed a Memorandum of Understanding (MOU) with the Ministry of Economic Affairs which was valid up to April 09, 2022. The Society had initiated the process of getting its MOU renewed with Economic Affairs Division (EAD), however the process is still pending.

The Society is eligible to collect a zakat in the light of Shariah Certificate dated December 27, 2023 issued by the Mr. Mufti Zubair Ahmed, a Shariah Compliant Advisor. Accordingly, the zakat is being spend according to Zakat Standard Operating Procedures (SOPs) and Policies developed by the Shariah Compliant Advisor.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The approved accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017 (the Act); and
- Accounting Standard for Not for Profit Organizations (Accounting Standard for NPOs) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017.

2.2 Basis of measurement

These financial statements have been prepared under historical cost convention.

2.3 Functional and presentation currency

These financial statements are presented in Pak Rupees, which is also the Society's functional currency. All financial information presented in Pak Rupees has been rounded off to the nearest Rupee.

2.4 Significant accounting estimates

The preparation of financial statements in conformity with the approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The areas where various assumptions and estimates are significant to the Society's financial statements or where judgment was exercised in application of accounting policies are as follows:

- a) Determination of useful lives and depreciation / amortization of operating fixed assets (note 4 & 5)
- b) Contingencies and commitments (note 20)
- c) Right-of-use assets and corresponding lease liability (note 6 & 16)

2.5 Amendments and interpretations to accounting and reporting standards that became effective in the current year

There were certain amendments and interpretations to published accounting and reporting standards that are applicable for the financial year beginning on January 1, 2024 but does not have any significant impact on the Society's financial reporting and therefore, have not been disclosed in these financial statements.

DEVELOPMENTS IN LITERACY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024

2.5.1 Standards, interpretations and amendments to published approved accounting standards that are not yet effective and have not been early adopted by the Society.

Standards, interpretations and amendments to published approved accounting standards that are not yet effective and have not been early adopted by the Society.

	Effective date (annual periods beginning on or after)
- IAS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - (Amendments)	January 1, 2024
- IAS 7 and IFRS 7 - Disclosures: Supplier Finance Arrangements - (Amendments)	January 1, 2024
- IFRS 16 - Lease Liability in a Sale and Leaseback - (Amendments)	January 1, 2024
- IAS 21 - Lack of exchangeability – (Amendments)	January 1, 2025
- IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)	Not yet announced

The above standards, amendments and improvements are not expected to have any material impact on the financial statements of the Society for the future periods.

Further, following new standard has been issued by IASB which is yet to be notified by SECP for the purpose of applicability in Pakistan.

Standard	IASB effective date(accounting periods beginning on or after)
- IFRS 1 – First-time Adoption of International Financial Reporting Standards	January 1, 2024
- IFRS 17 - Insurance Contracts	January 1, 2026

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

3.1 Property and equipment

These are stated at cost less accumulated depreciation and impairment loss, if any, except for free hold land which is carried at cost less impairment loss, if any. Cost of an item of property and equipment comprises purchase price, import duties and other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the management.

Depreciation is calculated on the reducing balance method, except leasehold land on which depreciation is calculated on straight line method, and charged to statement of income and expenditure to write off the depreciable amount of an asset over its estimated useful life at the percentages specified in note 4.

The cost of replacing a part of item of property and equipment is recognized in the carrying amount of the item if it is probable that future economic benefits embodied within the part will flow to the Society and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The cost of the servicing of the property and equipment are recognized in statement of income and expenditure as incurred.

Gains and losses on disposal of property and equipment are recognized in the statement of income and expenditure.

3.2 Intangible assets

An intangible asset is recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and that the cost of such asset can also be measured reliably. Intangible assets with finite useful life are stated at cost less accumulated amortization and impairment losses, if any.

DEVELOPMENTS IN LITERACY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024

Amortization of intangible assets, having finite useful life, is charged by applying diminishing balance method, so as to write off the cost of assets at amortization rate as mentioned in note 5 to the financial statements.

Subsequent expenditure is capitalized only when it increases the future economic benefit embodied in the specific asset to which it relates. All other expenditure is recognized in statement of income and expenditure as incurred.

Impairment of non-financial assets

- 3.3** The carrying amounts of the Society's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognized if the carrying amount of an asset or cash-generating unit (CGU) exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use or its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Impairment losses are recognized in profit or loss.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Leased assets

- 3.4** At the inception of a contract, the Society assesses whether a contract is, or contains, a lease. To assess whether a contract contains a lease, Society considers whether the contract conveys the right to control or use an identified asset by:

- The contract involves the use of an identified asset either explicitly or implicitly. The asset should be physically distinct or represent substantially all the capacity of the asset. If the supplier has the right of substitution, then the asset is not identified;
- The Society has the right to obtain substantially all the economic benefits from the use of the asset throughout the period of use; and
- The Society has the right to direct the use of the asset. The Society has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used.

Right-of-use assets

The Society recognizes a right-of-use asset and corresponding lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

Lease liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Society's incremental borrowing rate. Generally, the Society uses its incremental borrowing rate as the discount rate.

Lease payments in the measurement of the lease liability comprise the following: a). fixed payments, including in-substance fixed payments; b). variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date; c). amounts expected to be payable under a residual value guarantee; and d). the exercise price under a purchase option that the Society is reasonably certain to exercise, lease payments in an optional renewal period if the Society is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Society is reasonably certain not to terminate early.

DEVELOPMENTS IN LITERACY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, or if the Society changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Cash and cash equivalents

- 3.5 Cash and cash equivalents comprise of cash and bank balance.

Restricted grants

- 3.6 Grant received for specific purpose or imposes specified future performance, and bank interest thereon, are classified as restricted grants. Income from such grants is recognized, to the extent actual expenditure incurred against there. Expenditure against grants committed but not received is accrued and recognized as income, and is reflected as "Receivable from donor" when there is reasonable assurance that the Society will comply with the conditions attaching to such grants and the grants will be received. The unspent portion of such grants is reflected as "restricted grant" in the statement of financial position.

Deferred capital grants

- 3.7 Grants related to property and equipment and intangible asset are accounted for by setting up the grants as deferred capital grant. These grants are recognized as income on a systematic basis over the useful life of the related property and equipment and intangible asset.

Zakat contribution

- 3.8 Zakat contributions are initially deferred upon receipt and are recognized as income on a systematic basis as and when they are utilized for eligible purposes.

Taxation

3.9 Current

- (i) Current provision for current taxation is based on taxable income at the enacted or substantively enacted rates of taxation after taking into account available tax credits and rebates, if any. The charge for current tax includes adjustments to charge for prior years which arises from assessments/developments made during the year, if any.

Deferred

- (ii) Deferred tax is recognized using balance sheet liability method, providing for temporary differences between the carrying amounts if assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using the enacted or substantively enacted rates of taxation. The Society recognizes a deferred tax asset to the extent that it is probable that taxable profits for the foreseeable future will be available against which the assets can be utilized.

The Society is registered as not for profit organization under section 2(36) of the Income Tax Ordinance, 2001. The Society is eligible for tax credit under Section 100C of the Income Tax Ordinance 2001 from donations, voluntary contributions, subscriptions and so much of the income chargeable under the head "income from business" as is expended in Pakistan for the purposes of carrying out welfare activities. Hence, the provision for current and deferred taxation has not been made in these financial statements.

Income recognition

- 3.10 Grant is recognized as income over such period as is necessary to match it with the related expenditure, on a systemic basis. Donations received for school support are deferred and recognized as income on a systematic basis to match them with the related costs that they are intended to compensate.

School fee / tuition fee from students is recognized on receipt basis.

Employee benefits

3.11 Short term employee benefits

- 3.11.1 The cost of short term employee benefits (those payable within twelve months after the service is rendered such as leave pay, bonuses) are recognized in the period in which the service is rendered and are not discounted.

DEVELOPMENTS IN LITERACY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024

Gratuity

- 3.11.2** The Society operates an unfunded gratuity scheme for all its employees who have completed the minimum qualifying period of service as defined under the respective scheme. Provision is made annually to cover obligations under the scheme on the basis of actuarial valuation and is charged to income. Recent valuation was carried out as at December 31, 2023 using the "Projected Unit Credit Method". The results of actuarial valuation are summarized in note 16 of these financial statements.

Provisions

- 3.11.3** A provision is recognized in the financial statements when the Society has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

Foreign currency transactions

- 3.12** Transactions in foreign currencies are accounted for in Pak rupees at the rate of exchange ruling on the date of transactions. All monetary assets and liabilities in foreign currencies are translated into Pak rupees at the rate of exchange prevailing on the balance sheet date. Exchange gain / loss is charged to current year's income.

Financial instruments

- 3.13** All financial assets and financial liabilities are recognized at the time when the Society becomes a party to the contractual provisions of the instrument. All the financial assets are derecognized at the time when the Society loses control of the contractual rights that comprise the financial assets. All financial liabilities are derecognized at the time when they are extinguished that is, when the obligation specified in the contract is discharged, cancelled, or expires. Any gains or losses on de-recognition of the financial assets and financial liabilities are taken to the statement of income and expenditure.

Financial assets

- 3.14** The Society classifies its financial assets into following three categories:

- fair value through other comprehensive income (FVTOCI);
- fair value through profit or loss (FVTPL); and
- measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Amortized cost

- (i) Assets that are held for collection of contractual cash flows where those cash flow represents solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets, impairment losses, foreign exchange gains and losses, and gain or loss arising on derecognition are recognized directly in statement of income and expenditure.

Fair value through other comprehensive income

- (ii) Financial assets at fair value through other comprehensive income are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Fair value through profit or loss

- (iii) Assets that do not meet the criteria for amortized cost or fair value through other comprehensive income or assets that are designated at fair value through profit or loss using fair value option, are measured at fair value through profit or loss. A gain or loss on debt investment that is subsequently measured at fair value through profit or loss is recognized in statement of income and expenditure in the period in which it arises.

DEVELOPMENTS IN LITERACY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024

Financial liabilities

3.15 The Society classifies its financial liabilities in the following categories:

- at fair value through profit or loss; and
- other financial liabilities

The Society determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognized initially at fair value and, in the case of other financial liabilities, also include directly attributable transaction costs. The subsequent measurement of financial liabilities depends on their classification, as follows:

Fair value through profit or loss

- (i) Financial liabilities at fair value through profit or loss include financial liabilities held-for-trading and financial liabilities designated upon initial recognition as being at fair value through profit or loss. The Society has not designated any financial liability upon recognition as being at fair value through profit or loss.

Amortized cost

- (ii) After initial recognition, other financial liabilities which are interest bearing are subsequently measured at amortized cost, using the effective interest rate method. Gain and losses are recognized in the statement of income and expenditure, when the liabilities are derecognized as well as through effective interest rate amortization process.

Offsetting

- a) A financial asset and financial liability is off-set and the net amount is reported in the statement of financial position when there is a legally enforceable right to set-off the transaction and also there is an intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

Impairment of financial assets:

- b) The Society assesses on a forward looking basis the Expected Credit Losses (ECL) associated with its debt instruments carried at amortized cost and FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Following are financial instruments that are subject to the ECL model:

Loans, advances, deposits and prepayments

- Cash and bank balances
- **General approach for loans, advances and deposits and cash and bank balances**
- c) The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information (adjusted for factors that are specific to the counterparty, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate). As for the exposure at default for financial assets, this is represented by the assets' gross carrying amount at the reporting date. Loss allowances are forward-looking, based on 12 month expected credit losses where there has not been a significant increase in credit risk rating, otherwise allowances are based on lifetime expected losses.

Expected credit losses are a probability weighted estimate of credit losses. The probability is determined by the risk of default which is applied to the cash flow estimates. In the absence of a change in credit rating, allowances are recognized when there is reduction in the net present value of expected cash flows. On a significant increase in credit risk, allowances are recognized without a change in the expected cash flows, although typically expected cash flows do also change; and expected credit losses are rebased from 12 month to lifetime expectations.

Simplified approach for trade receivables

- d) The Society recognizes life time ECL on trade debts and contract assets, using the simplified approach. The measurement of ECL reflects:
- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes.
 - reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

DEVELOPMENTS IN LITERACY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024

As the Society applies simplified approach in calculating ECLs for advances, short term deposits and other receivables the Society does not track changes in credit risk, but instead recognized a loss allowance based on life time ECLs at each reporting date. ECLs on these financial assets are estimated using a provision matrix approach adjusted for forward looking factors specific to the debtors and economic environment.

The Society recognizes an impairment gain or loss in the statement of income and expenditure for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognized in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

Finance income and finance costs

- 3.16** Finance income comprises profit on saving accounts which is recognized on a time proportion basis.

Finance cost comprises bank charges which are charged to statement of income and expenditure in the period in which they are incurred.

Fair value of financial instruments

- 3.17** Fair value is the amount that would be received on sale of an asset or paid on transfer of a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and fair value estimates. Underlying the definition of fair value is the presumption that the Board is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

IFRS 13, 'Fair Value Measurements' requires the Board to classify fair value measurements using fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the assets or liability that are not based on observable market data (unobservable inputs).

Current service cost		(Rupees)	(Rupees)
Interest cost on defined benefit obligation		12,920,167	11,483,698
		<u>12,378,764</u>	<u>12,969,390</u>
		<u>25,298,931</u>	<u>24,453,088</u>

17.1.6 Sensitivity analysis

The sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied, as applied when calculating the gratuity liability recognized within the statement of financial position.

**DEVELOPMENTS IN LITERACY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024**

18	ZAKAT CONTRIBUTION	Note	2024 (Rupees)	2023 (Rupees)
	Balance at the beginning		14,976,082	-
	Zakat received during the year		8,845,900	-
	Zakat contribution reclassified from restricted grants	10	-	14,976,082
	Zakat utilized during the year		23,821,982	14,976,082
	Zakat available for utilization at year end		23,821,982	14,976,082

Closing balance of Zakat represented by:

Bank balance related to zakat	23,821,982	14,976,082
Balances related to other donations in Zakat accounts	10,363,803	-
Bank balance in Zakat Bank accounts	34,185,785	14,976,082

18.1 During the preceding year, the Institute of Chartered Accountants of Pakistan issued "Financial Statements Disclosures of Zakat Received by an Entity" (Accounting standard) that was applicable on entity having reporting periods beginning on or after January 01, 2024. Accordingly, in accordance with the accounting standard, the Society has adopted a separate accounting policy for utilization of zakat, as detailed in note 3.8. Further, the Society has disclosed movement in zakat balance during the reporting period, information about the nature and amounts of costs/expenditures for which zakat was utilized by the entity during the year, information about the nature and amounts of zakat received (including in kind) during the year and closing balance of zakat and its representation by the net assets (e.g. cash and bank balances, accrued liabilities). The zakat received during previous years was recognized as restricted grant and has been reclassified to zakat contribution during the current year.

20 CONTINGENCIES AND COMMITMENTS

20.1 Contingencies

20.1.1 The Deputy Commissioner Inland Revenue DCIR, passed the order for Tax year 2017 and raised the demand of Rs.33,863,022/- without considering the fact that withholding tax is deducted / collected and deposited in government treasury. The Society filed appeal to the Commissioner Inland Revenue CIR(A) where the matter is currently pending for adjudication. Based on advice of tax consultant, the Society is confident that there are reasonable grounds for favorable decision and accordingly no provision in this regard has been recognized in the financial statements.

24 FINANCIAL INSTRUMENTS

The Society has exposures to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

The Board of Trustees has overall responsibility for the establishment and oversight of the Society's risk management framework. The Board is also responsible for developing and monitoring the Society's risk management policies.

The Society's risk management policies are established to identify and analyze the risks faced by the Society, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Society's activities. The Society, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Board of Trustees oversees how management monitors compliance with the Society's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Society.

DEVELOPMENTS IN LITERACY NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

24.1 Credit risk

Credit risk is the risk of financial loss to the Society if a counterparty to a financial instrument fails to meet its contractual obligations. The Society's credit risk is primarily attributable to deposits, short term investments and balances at banks. The Society believes that it is not exposed to major concentration of credit risk as the exposure is spread over a number of counter parties which are mainly banks with reasonable high credit ratings. The carrying amount of financial assets represents the maximum credit exposure at the reporting date as follows:

	2024 (Rupees)	2023 (Rupees)
Short term deposits	-	276,500
Receivable from donors	10,637,378	7,118,238
Bank balances	394,276,769	309,991,905
	<u>404,914,147</u>	<u>317,386,643</u>

Geographically there is no concentration of credit risk. As at the year end the Society's most significant financial asset represents amount placed with a Bank from whom Rs. 394.398 million (2023: Rs. 309.991 million) was receivable and receivable from donors who are international funding counterparts of the Society having intention to fund the education program in Pakistan. Based on past experience, the management believes that no impairment allowance is necessary in respect of its financial assets.

Cash is held only with reputable banks with high quality external credit rating assessed by external rating agencies. Following are the credit ratings of banks with which balances are held or credit lines available:

Bank	Rating Agency	Short term/ long term rating	2024 (Rupees)	2023 (Rupees)
Standard Chartered Bank Limited	PACRA	A-1+ /AA	37,401,425	-
Telenor Tameer Bank	PACRA	A-1/A+	2,863	2,863
Habib Metropolitan Bank	PACRA	A-1+ /AA+	356,872,481	309,989,042
			<u>394,276,769</u>	<u>309,991,905</u>

24.2 Liquidity risk

Liquidity risk is the risk that the Society will not be able to meet its financial obligations as they fall due. The Society's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Society's reputation. The Society uses different methods which assists it in monitoring cash flow requirements and optimizing its cash return on investments. Typically the Society ensures that it has sufficient cash on demand to meet expected operational expenses for a reasonable period, including the servicing of financial obligation; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The following are the contractual maturities of financial liabilities:

	Carrying amount	Within one year	Two to five years	Over five year
		----- (Rupees) -----		
- 2024				
Lease liabilities	5,273,423	(312,605)	(322,625)	5,908,653
Accrued and other liabilities	38,015,348	38,015,348	-	-
	<u>43,288,771</u>	<u>37,702,743</u>	<u>(322,625)</u>	<u>5,908,653</u>
- 2023				
Lease liabilities	4,967,733	(305,690)	(959,113)	6,232,535
Accrued and other liabilities	32,628,994	32,628,994	-	-
	<u>37,596,727</u>	<u>32,323,304</u>	<u>(959,113)</u>	<u>6,232,535</u>

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts.

**DEVELOPMENTS IN LITERACY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024**

24.3 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. All such activities are carried out with the approval of the Board. The Society is not significantly exposed to market risk.

a) Currency risk

The Society is not significantly exposed to currency risk.

b) Interest rate risk

The interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure arises from investment and saving accounts with banks. The Society has no interest bearing financial liabilities. At the balance sheet date, the interest rate risk profile of the Society's interest bearing financial instruments is:

	Note	2024 (Rupees)	2023 (Rupees)
Saving bank accounts	12	360,088,120	295,012,960

Fair value sensitivity analysis for fixed rate instruments

The Society does not hold any fixed rate financial asset at fair value through profit and loss. Therefore a change in interest rate at reporting date would not affect income and expenditure account of the Society.

Fund management

The Board of Directors of the Society monitors the performance along with the fund required for the sustainable operations of the Society. There were no changes to the Society's approach to the fund management during the year. The Society is not subject to externally imposed fund requirements.

25 DETERMINATION OF FAIR VALUE

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information of financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

	2024				2023			
	Carrying value		Fair value		Carrying value		Fair value	
Assets carried at amortized cost								
Long term deposit	1,186,500		1,186,500		390,000		390,000	
Security deposits	-		-		276,500		276,500	
Receivable from donors	10,637,378		10,637,378		7,118,238		7,118,238	
Cash and cash equivalents	394,334,966		394,334,966		310,060,690		310,060,690	
Liabilities carried at amortized cost								
Lease liability	5,273,423		5,273,423		4,967,733		4,967,733	
Accrued and other liabilities	42,823,176		42,823,176		38,866,413		38,866,413	

26 TRANSACTIONS WITH RELATED PARTIES

Related parties comprise of Developments in Literacy USA, UK, Canada, all affiliates of the Developments in Literacy, trustees, key management personnel and entities over which the trustees are able to exercise significant influence. Transactions and balances with related parties other than already disclosed in these financial statements are as follows:

	Note	2024 (Rupees)	2023 (Rupees)
Remuneration of key management personnel		25,524,408	21,494,800
Funds received during the year from affiliates	10	893,091,508	620,106,062
