

Pakistan where every child

has access to high-quality education
that empowers them to thrive.

Developments in Literacy
Transforming Lives Through Education

Why It Matters

Today, more children in Pakistan are attending school than ever before; yet many are not gaining the foundational skills needed to succeed.

87.6%

of Grade 3 students
cannot read at grade level*

90.9%

of Grade 3 students
cannot solve basic division*

**ASER 2025*

Our Impact

Expanding access to high-quality education across underserved communities in Pakistan since 1997.

495,000+

89%
students use digital tools to learn

How We Work

DIL's holistic model improves teaching and learning in low-resource settings, at no cost to students.

Ed-Tech in Classrooms

Technology-enabled learning

- Digital learning platform
- Digital library to build reading fluency and comprehension

Teacher Development

Empowering educators to lead

- Practical teaching strategies
- Ongoing professional development

Early Childhood

Building strong foundations

- Age-appropriate, play-based learning
- Focus on cognitive and social development

Ed-Tech in Action

DIL is transforming how students learn and how teachers teach.

TEAL

DIL's flagship digital learning model

- Interactive video lessons
- Lesson plans for higher-order thinking
- Student assessments

Digital Ecosystem

Learning Management System (LMS)

An AI-powered platform that creates, manages, delivers and tracks learning

DILse (Speak & Engage)

AI-powered conversational English practice to build fluency

Student Chromebooks

Enable high school students to access digital learning and research

Where We Work

In addition to running our own schools, DIL transforms government schools—improving enrollment, attendance, and learning outcomes.
